

RYERSON RAMS
ROBOTICS

SPONSORSHIP PACKAGE
2018-2019

Hello potential sponsor! Hope you find an interest in our passion projects, and help us keep them going!

PAST PROJECTS

RamsBot is a basketball shooting robot built in under six weeks to promote National Engineering Month 2015. It beats most professional players in accuracy, shooting from the free throw, three point line, and half court. Since it's debut, it has made appearances at the Air Canada Centre for the Toronto Raptors, Discovery's Daily Planet, Breakfast Television, and more.

The Airbus Shopfloor Challenge encouraged teams across the world to compete and develop an automated, open-source solution to airplane manufacturing deficiencies. R3 was one of hundreds of applicants invited to compete in Stockholm, Sweden against 7 other teams. After successfully advancing to the finals, R3 placed 4th, and was the highest ranking team with a completely custom robot.

CURRENT PROJECTS

With over 100 members, R3 is split into 3 main annual projects:

VEXU: Based on the highly popular High School competition, VEXU teams are allowed more flexibility and customization in the design and creation of the game robot. The robot is designed to compete in autonomous and driver skills based 2v2 matches, against other university teams across the world.

URC: Short for the University Rover Challenge (rover pictured below), is the world's premier robotics competition for university students. R3 has been a new contender, with this year being the third year competing, but has quickly proven to be among the best in the world, consistently being invited to the international competition both years in a row.

RoboSub: The newest addition to R3's repertoire of annual competitions, RoboSub is the most complex of them all, with the challenge to build a underwater robot capable of completing a wide range of autonomous tasks.

SPONSOR US!

As seen, R3 is a large team, split into multiple projects, each costing upwards of tens of thousands of dollars. We rely on the kindness of sponsors such as you to help keep our passion alive and running. Please consider helping us fund this year's team:

	Bronze >\$250	Silver >\$1,000	Gold >\$5,000	Platinum >\$10,000
